

"My insurance company has reduced its rates because we are a member of RIDBA and have recognised that RIDBA Members have a lower accident rate than the norm in the construction industry; the saving is far more than the subs I pay as a Corporate Member"

"At the first meeting I attended I found I could claim £600.00 from the NSCC in recognition of the training I had provided for some of my staff; it more than paid for my subs"

"I always come away from the meetings having learnt something, often from chatting to members in the bar the night before the meeting. This input more than pays for the cost of membership."

RIDBA

brings together the common aims of those involved in high quality framed construction, following good practice in safety: with a very wide membership base, representing contractors, designers, colleges, surveyors, planners, manufacturers & clients.

The main aims of RIDBA are:

- To promote the interests of RIDBA members.
- To encourage good quality design and safety in construction.
- To collect and publish information relating to good quality safe construction.
- To ensure members' views are taken into account by legislative bodies when preparing new regulations, codes of practice, design guides or standards.
- To keep members informed of changes to regulations, standards and legislation.

Some of the ways the above are promoted are listed below

- We hold regular Events,** through out the UK at both national and regional levels.
- Past events have included visits to:** The Merlo factory in Italy, JCB, Marley Eternit Ltd, Brett Martin Daylight Systems, Corus Profiles Ltd, Cembrit Blunn Ltd, large steel fabricating factories, innovative and interesting buildings such as the award winning Harper Adams Library.
- Seminars on:** Part L, health & safety, net rigging, training, retentions, insurance and payment,
- We have representation on the following committees:** Advisory Committee on Roofwork, NSCC Council and Health and Safety Committee, British Standards Committees B 549 Farm Buildings and B 514 -27 Nets and sheets and the Small Business Trade Association Forum of the HSC
- We provide information to members by:** Quarterly Journal 'Countryside Building', bi-monthly NSCC Newsline, meetings & seminars through out the UK, construction advice notes, the use of the RIDBA confidential Forum.

We provide opportunities for networking: With other members at meetings, over the phone, socialising, meetings & seminars, etc

As Members of the National Specialist Contractors Council (NSCC) Members have the benefit of: Monthly Newsline, Opportunity for member views to be given to: Construction Industry Advisory Committee, Association of British Insurers, Government, Construction Industry Training Board, Association of Independent Construction Adjudicators, etc.

Members have the benefit of free advice lines on: Health and Safety, Contractual & Legal, Industrial Relations and Tax and Business

Members are promoted by: Being Listed in the searchable data base on the RIDBA website, opportunities for reduced advertising rates, information in members section of our Journal, Corporate Members listed in centre spread of Journal, Annual Members' Directory in our Journal.

There are three grades of membership, listed below with their Benefits
